MAP S

BOTH OF

ANTIENT and PRESENT GEOGRAPHY,

WHEREIN

Not only the Latitude and Longitude of many Places are Corrected, according to the latest Observations; but also the most remarkable Differences of Antient and Present Geography, may be quickly discern'd by a bare Inspection or Comparing of Correspondent MAPS; which seems to be the most natural and easy Method to lead Young Students (for whose Use the Work is principally intended) unto a competent Knowledge of the Geographical Science.

A GEOGRAPHICAL TREATISE, in 8°. PARTICULARLY ADAPTED

to the Use and Design of these MAPS.
